POST Search Warrant Writing Tool

When clicked, the Portal will show the Sign-in screen first. After signing in, the page with the Search Warrant Writing Tool and its Download button should appear.   Please keep in mind this tool is

- for California Law Enforcement only,
- will install only on Windows operating systems, and
- requires a valid Portal account to register.

The installation routine checks for all the necessary components on the computer. In some circumstances, it can take 45 minutes to install completely. It is best for investigators to try out the tool in advance of actually having to write a warrant under time constraints. Any questions about the tool or obtaining a Portal account should be directed to POST (916) 227-3909.
